

I am requesting your help in raising funds for my younger brother Anthony. Anthony is 10 years younger than myself. He was diagnosed with Leukemia and requires a bone marrow transplant. We have set up a live web site, and attached is the link. Donations would be greatly appreciated. I will be taking some time off later in the year to travel to Washington to help My sister and with his care and finances.

www.thelighthousecommunity.org

Thank you in advance for any support emotionally or financially. We just launched this site yesterday and the response has been great. Clicking on the Find Out More link shows more personal information on Anthony's journey against this disease.
